- The US have been at war on a constant basis since 1945 and before
- The construction of the enemy is based solely on Financial interest of and for corporate America
- Ultraliberalism & Democratic values are sold to allow a fraud on sovereign nation and their people.
- The theft of resources, mineral, agricultural, corporate, financial is justified by systematic villainization of the other, the projection of a pseudo higher moral ground.
- The American population is entertained as the World Savior, Defensor of the good against the bad while all at the same time lying to its own population, commits the worst atrocities on others.
- Corporate America DICTATES the social, societal & political agenda.
- American societal, corporate & political corruption is projected onto the world
- War is used as a cycle to steal, distract and entertain its own population, but also to feed the US political corruption as a money laundering operation paid for by the American Taxpayers while engrossing crooks & thugs.
- Corporate America, at the same token that it uses the US as an “empty shell”, Sovereign nation face the same predicament with the blessing of US authorities and the institutionalization of fraud by avoiding tax, leaving the taxpayers bearing the brunt to pay for any economic downfall created by the same uncontrollable corporate malfeasance.
- A double fraud on the people where, corporate America do not pay its fair share of taxes, creates chaos salvage by the taxpayers money. I.E : 2008 ; Covid ; War in Irak /Ukraine. The dogmatization between Capitalism ; Socialism or Communism is absolutely and totally irrelevant. The real denomination is called FRAUD perpetrated by thugs where one constituent of society have the others pay twice by being left unaccountable to Society by international Tax loopholes and have the taxpayers pay for the chaos generated by its own doing. Globalism at its best. Mesmerizing Genius.
